## Escalation Matrix

Zayo Education understands that earning and keeping the trust of our customers is dependent on our ability to quickly achieve service restoration and problem resolution. We further understand that any loss of service can greatly impact the end user, and our escalation priority levels and procedures are designed to ensure impact durations are kept as short as possible. This is a result of our keen focus on customer service and the superior talent, experience, and commitment of our team combined with our technical approach.

We utilize an escalation system based on and customized for the needs of our end users. The following chart outlines the Zayo Education escalation protocol based on incident priority.
